

Flat-wire common-mode chokes

ENQUIRY REFERENCE JY-PV-CMC

Product portfolio photograph

PORTFOLIO FAMILY

Flat-wire common-mode chokes

APPLICATION CONTEXT

PV inverters and home energy storage

PHOTO REFERENCE

2026 company product portfolio

For a part-specific quotation

- 01 Number of lines and current operating conditions
- 02 Target noise-frequency range and attenuation requirement
- 03 Available footprint, height, terminals and mounting
- 04 Temperature, insulation and sample acceptance requirements

This reference identifies a photograph set. Final part number, dimensions, ratings, samples and commercial terms are confirmed after specification review.

Discuss the component you need

PFC inductors

ENQUIRY REFERENCE JY-PV-PFC

Product portfolio photograph

PORTFOLIO FAMILY

PFC inductors

APPLICATION CONTEXT

PV inverters and home energy storage

PHOTO REFERENCE

2026 company product portfolio

For a part-specific quotation

- 01 PFC topology, inductance target and switching conditions
- 02 Current waveform, including peak and RMS targets where known
- 03 Thermal limits, cooling and intended operating environment
- 04 Package drawing, mounting, terminals and acceptance tests

This reference identifies a photograph set. Final part number, dimensions, ratings, samples and commercial terms are confirmed after specification review.

Potted components

ENQUIRY REFERENCE JY-PV-POT

Product portfolio photograph

PORTFOLIO FAMILY

Potted components

APPLICATION CONTEXT

PV inverters and home energy storage

PHOTO REFERENCE

2026 company product portfolio

For a part-specific quotation

- 01 Component function, electrical targets and assembly drawing
- 02 Enclosure dimensions, mounting and lead-wire connections
- 03 Thermal path and required insulation/environmental tests
- 04 Sample acceptance criteria, documentation and project quantity

This reference identifies a photograph set. Final part number, dimensions, ratings, samples and commercial terms are confirmed after specification review.
